

# Is your data validation process DRAINING PROFITS?

MANUAL

## Stare-and-Compare: BIG LOSSES

Manual data validation is time consuming, error prone and expensive.

### Financial Risks:

Higher FTE costs

Bad investor quality ratings, price hikes and suspensions

Regulatory scrutiny resulting in fees and fines

→ Insuring/delivery delays

Longer warehouse dwell times

Re-working & duplicate labor costs

AUTOMATED

## DataSure™: BIG SAVINGS

Cut review times in **1/2** and **DOUBLE** daily production.

# DATA SURE™

## DataSure™ radically improves data quality for closed loans.

DataSure automates data validation for the key data points within a lender's source system (i.e. LOS) – eliminating 100% of all data integrity issues before loan files reach investors and insurers.

### Why DataSure?

- Higher ROI
- 100% clean data to investors
- Manage by exception
- Lower FTE expenses
- Zero lending risk

Reduce risk and make better business decisions.
